### SUMMARY OF STUDENTS' FEEDBACK ON CURRICULUM AND SYLLABI (2022–2023)

The College of Nursing collected feedback from students across various programmes and year levels regarding the curriculum and syllabi. The overall feedback was positive, with students expressing satisfaction with the curriculum's relevance, comprehensiveness, and its contribution to their academic and professional development.

#### *Students appreciated:*

- The effective integration of theoretical knowledge with clinical and laboratory experiences.
- Clinical postings, demonstrations, mentoring, educational tours, and practical sessions that enhanced learning.
- Interactive teaching methods, online quizzes, assignments, and regular assessments that supported understanding of course content.
- Opportunities for experiential learning through hospital and community postings.

#### *Students also provided constructive suggestions for further enhancement:*

- Increase the use of interactive teaching-learning methods such as discussions, role plays, demonstrations, case-based learning, and quizzes.
- Provide additional guidance and support in challenging subjects such as Microbiology, Pharmacology, Psychology, Statistics, Health Informatics, and Genetics.
- Ensure timely communication regarding academic schedules, clinical postings, examinations, and curriculum-related activities.
- Increase opportunities for hands-on practice, demonstrations, and student-teacher interactions.
- Strengthen clinical learning experiences through better planning of postings and exposure to specialized healthcare settings.
- Provide more practice exercises, revision sessions, and orientation regarding examination patterns and assessment methods.

The feedback was reviewed by the institution, and appropriate measures were initiated to enhance teaching-learning processes, strengthen clinical education, improve communication, and promote a more student-centered learning environment.
